Date

Number of answers

Tally how many students ticked each box. Percent often or always = (number of 4s + number of 5s) divided by the total, times 100.

STATEMENT	1	2	3	4	5	TOTAL	% OFTEN OR ALWAYS
1. I plan which days and times I will study.							
2. I spread revision for a test over several days.							
3. I hand in homework by the time it is due.							
4. I test myself without looking at my notes.							
5. I explain what I learned in my own words.							
6. Within a day of a lesson, I go over my notes and add what I missed.							
7. My phone is out of reach while I study.							
8. When I am stuck, I ask a teacher or classmate.							
9. I get a full night of sleep before a test.							

When you revise for a test, what takes up most of your time

Strengths

The two statements with the highest percent often or always.

Habits to work on first

The two statements with the lowest percent often or always.

What the open answers say

Sort the comments into three or four themes.

You said, we will

What the class reported, and the one habit everyone will try before the next test.
