

School technology results

Class or course

Date

Number of answers

Tally how many students ticked each box. Percent agree = (number of 4s + number of 5s) divided by the total, times 100.

STATEMENT	1	2	3	4	5	TOTAL	% AGREE
1. The apps and sites we use in class help me learn.							
2. I know which app to use for each class.							
3. School devices and Wi-Fi work when we need them.							
4. When tech breaks, I get help quickly.							
5. Teachers show us how to use a new tool first.							
6. Screens in class rarely pull me off task.							
7. I know what school apps do with my data.							

In the past month, how often did a slow connection or missing device stop you finishing homework

NEVER	ONCE	A FEW TIMES	OFTEN

Strengths

The two statements with the highest percent agree.

Fix first

The two statements with the lowest percent agree.

What the open answers say

Sort the comments into three or four themes.

You said, we will

What students said about their devices and apps, and the first change the school will make.
