

UAT round results

Name _____ System and round _____ Date _____ Number of answers _____

Tally how many testers ticked each box. Percent agree = (number of 4s + number of 5s) divided by the total, times 100.

STATEMENT	1	2	3	4	5	TOTAL	% AGREE
1. I could finish my everyday tasks from start to end.							
2. The totals and records it produced were correct.							
3. The screens follow the order I do this work in.							
4. Error messages told me how to put things right.							
5. Screens loaded fast enough for my normal pace.							
6. The test cases covered the work I really do.							
7. I am ready to use this system for real work.							

How many of your assigned test cases did you finish

ALL	MOST	ABOUT HALF	A FEW	NONE

Strengths

The two statements with the highest percent agree.

Fix before the next round

The two statements with the lowest percent agree.

What the open answers say

Sort the comments into three or four themes.

You said, we will

What testers found, what gets fixed, and when the retest runs.
