

Water quality survey results

Neighborhood or area _____

Date _____

Number of answers _____

Tally how many residents ticked each box. Percent agree = (number of 4s + number of 5s) divided by the total, times 100.

STATEMENT	1	2	3	4	5	TOTAL	% AGREE
1. My tap water tastes fine to me.							
2. Water from my taps is clear in a glass.							
3. I feel safe drinking water straight from my tap.							
4. My supplier tells me clearly when something goes wrong.							
5. I know how to find out what is in my water.							
6. Local rivers and beaches are clean enough to swim in.							
7. I know what I can do at home to keep local water clean.							

Overall, how would you rate your tap water

EXCELLENT	GOOD	FAIR	POOR	VERY POOR

Strengths

The two statements with the highest percent agree.

Fix or explain first

The two statements with the lowest percent agree.

What the open answers say

Sort the comments into three or four themes.

You said, we will

What residents reported, and the next step you will take.
